

RECOGNIZING THE CONTRIBUTIONS OF RICHARD KRUGMAN

HON. DIANA DeGETTE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 4, 2014

Ms. DEGETTE. Mr. Speaker, I rise to honor the contributions of one of Colorado's most respected citizens, Dr. Richard D. Krugman. On the occasion of his retirement, it is fitting that we look back at his successful career. His leadership in the medical community is demonstrated in part by the many roles he fills, including Vice Chancellor for Health Affairs for the University of Colorado Denver and Dean of the Colorado School of Medicine. He began his tenure as Dean in 1992, making him the longest-serving dean of any medical school in the country. In that role, he has made a significant impact on not only the Colorado School of Medicine but also the greater Colorado community. He merits both our recognition and gratitude for his steadfast efforts in creating a highly prestigious medical school that benefits the health of Colorado in so many ways.

After graduating from Princeton University, Dr. Krugman earned his medical degree at New York University School of Medicine. He came to Colorado to do his internship and residency in pediatrics at the University of Colorado Denver School Of Medicine. As a board-certified pediatrician, Dr. Krugman joined the University of Colorado faculty in 1973. He has authored over 100 original papers, chapters, editorials and four books, and recently stepped down after 15 years as Editor-in-Chief of Child Abuse and Neglect: The International Journal. He has done incredible work raising awareness and tackling the problem of child abuse. He further assists the community by serving on the Boards of Trustees of Denver Health, Princeton University, the Hasbro Children's Foundation and the Kempe Children's Foundation. Dr. Krugman also served our country as a major in the U.S. Army Reserve.

In addition to his service as dean and vice chancellor, Dr. Krugman left his mark on the University of Colorado in his many other roles. He was the Director of Admissions and Co-Director of the Child Health Associate Program. He served as the Director of the University's Area Health Education Center program, and Vice Chairman for Clinical Affairs in the Department of Pediatrics. He is also president of University Physicians, Inc., the School of Medicine faculty practice plan.

Of Dr. Krugman's many accomplishments at the University of Colorado, one the most notable is the role he played in the construction of the new Anschutz Medical Campus. His unwavering determination to move the medical school from an old campus to a beautiful state of the art facility has dramatically benefitted the School of Medicine. U.S. News & World Report consistently rates the school among their top five primary care provider rankings.

Please join me in commending Dr. Richard Krugman for more than 40 years of extraordinary service. His talents and perseverance are an example and inspiration for us all and helps to build a better future for everyone living in Colorado.

RECOGNIZING INFLAMMATORY BOWEL DISEASE AWARENESS WEEK

HON. ANDER CRENSHAW

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 4, 2014

Mr. CRENSHAW. Mr. Speaker, I rise today in observance of National IBD Awareness Week, December 1–7, 2014, which bring attention to over 1.4 million Americans affected by Crohn's disease and ulcerative colitis, collectively known as inflammatory bowel disease, or IBD. These disorders impact the gastrointestinal tract, the area of the body where digestion takes place. They cause inflammation of the intestine, which leads to ongoing symptoms and complications.

Although anyone can get IBD, it is most commonly diagnosed in adolescents and young adults between 15 and 25 years old. There is currently no known cause or cure for IBD, and individuals with IBD may suffer from various symptoms from mild to severe abdominal pain, diarrhea, fever, and intestinal bleeding. The impacts are devastating to both patients and their families.

While we still do not have all the answers, there is hope. An increasing number of genes have been identified—over 100 today—that may cause an increase in the risk of developing IBD, confirming that IBD has a strong genetic component. With these discoveries and new technological advances, researchers are working furiously to find cures.

Despite this, the unpredictable nature of these painful and debilitating digestive diseases creates a significant burden on the community and economy. Every year, there is more than \$1.26 billion in direct and indirect costs to the US healthcare system due to hospitalizations as a result of IBD complications.

As the co-chair of the Crohn's and Colitis Caucus, a bi-partisan group of Congressional Members dedicated to educating the public and other Members on IBD, I urge my fellow Caucus members and colleagues to join me in recognizing IBD Awareness week and the millions of Americans suffering from this disease. I would also like to take this time to honor my colleague and fellow co-chair, JIM MORAN, for his leadership over the years in improving access to treatments for IBD for this vulnerable population. He has been an incredible partner in this fight to prevent and cure IBD. He will be missed in this Chamber as he moves on to the next chapter in his life.

With the support of the Crohn's and Colitis Foundation of America, I encourage all Americans to join in the fight to cure, raise awareness, and increase research on this debilitating disease. Together, with the help of researchers, educators, medical professionals, patients, and families, we can find a cure and end this devastating disease for millions of people around the world.

HONORING THE PUBLIC SERVICE OF ZAFAR INAM

HON. GLORIA NEGRETE McLEOD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 4, 2014

Mrs. NEGRETE McLEOD. Mr. Speaker, Mr. Zafar Inam served as my District Representa-

tive for California's 35th Congressional District, which includes the communities of Bloomington, Chino, Fontana, Montclair, Ontario, Rialto in San Bernardino County, and the City of Pomona in Los Angeles County.

Mr. Zafar Inam contributed greatly to the public policy goals of my office and served as the principal staff member to constituent groups advocating for a better quality of life, housing issues, intelligence issues, working conditions, education, and immigrants' rights.

Mr. Zafar Inam acted as the District Representative within my Congressional District office. His responsibilities included answering casework correspondence, meeting with constituents, verbal communications with constituents, forming effective relationships with local leaders and serving as a liaison with federal, state, and local agencies.

As a result of Zafar Inam's work in Congress, Zafar has had the unique opportunity of acquiring a deeper understanding of the legislative process, public policy formation in the nation's capital, while also providing assistance to my Congressional Office, other members in Congress, legislative committees, and their constituencies.

A native of Southern California, Zafar attended Upland High School, graduated from Chaffey College, and went on to earn a Bachelor of Science degree in Engineering from California State Polytechnic University, Pomona.

Continuing his pursuit of higher education, Zafar earned his Master's degree in Civil Engineering and Management from California State University, Fullerton, and his impressive resume includes being the local President of Scientists and Engineers of America, organization promoting science and math policy; also designing and building roadways and bridges as an Engineer for the State of California.

As a result of his outstanding service as District Representative for my congressional office, Zafar Inam is better equipped to provide valuable leadership and contributions to educational institutions; local, regional, state and federal governments; and professional, business, and community endeavors in the State of California and the entire nation.

Let it be known Mr. Speaker, that Mr. Zafar Inam, District Representative, be commended for his exemplary service on behalf of the Members of Congress of the United States, and extended sincere best wishes for every success in his future endeavors.

BRIDGING THE AFFORDABILITY GAP IN ACA

HON. DAVID P. ROE

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 4, 2014

Mr. ROE of Tennessee. Mr. Speaker, since the implementation of the Affordable Care Act, more and more Tennesseans, and more and more Americans, are expressing concern about the affordability of health care. Even though more people have insurance, they are struggling with growing deductibles and out-of-pocket expenses.

To put a finer point on it, the Kaiser Family Foundation reports that one in three Americans are having difficulty paying their medical
